also that it "will be in every way worthy of the greatest city known to civilization," and we do not doubt it, at least if worth is measured by luxury, profuse expenditure, and the ingenious art of the builder, decorator, furnisher, and caterer. But it is not only in the Western that these huge inns and boarding-houses arise. One of them does a thriving business in what used to be considered the remote wilds of Marylebone-road. Another, appropriately named the Palace, will be built near the Baker-street station of the Metropolitan Railway. A few years ago one would sooner have thought of erecting a great hotel on Grimrose Hill. "Perhaps that will come soon. For one of the features latter-day London is the way the central zone—the zone devoted to fashion, entertainment, amusement, social recreation—is extending. It is taking a slice of territory stretching far north of Oxford-street, so that Regent's Park is once more becoming an eligible residential quarter, and Avenue-road and its tributaries are providing artistic and expensive abodes for persons who not long since would not have condescended to live anywhere outside the western or the nearer south-western postal districts."

The geographical enlargement of central London has something to do with the increase of the hotels. But the most efficient cause is the change of public habits, the modification of the old domesticity, and the vogue of our metropolis as one of the world's pleasure resorts for rich people. We compete with Paris now, and have far eclipsed Rome, Vienna, and Cairo in this respect. Wealthy persons from all the great centres, from New York, Chicago, Buenos Ayres, St. Petersburg, Berlin, Paris itself, come here to enjoy themselves. They have money in their pockets, and they have no intention of enduring hardships of travel. Nothing but the best will content them, and they expect to find in their hotels all the luxuries which a fastidious millionaire might secure in his own home. All our visitors are not of this exacting kind; tens of thousands of persons of moderate means sojourn with us, but they, too, require to be treated very differently from their complaisant and contented predecessors. Hence the increase of great middle-class hotels, where you are not held to ransom by troops of gorgeous attendants, but where all the same you are lodged in a "palace," and can fare sumptuously. But it is the Londoner himself who contributes as the stranger within his gates to the new development. We have long since caught the hotel habit. The Englishman's home, no doubt, is still his castle; but the garrison is often away. The castle may be a flat where facilities for entertainment are slight; it may be suburban villa the chief attraction of which is that it is a comfortable run in a car from Piccadilly or the Strand. So we dine, lunch, sup in the restaurants not once in a way, but constantly; we see our friends in them, and give our dinner parties there, avoiding many of the troubles and worries of housekeeping thereby; the most aristocratic hostesses leave the family mansion in the gloomy seclusion of its square and hold their dances and receptions at an hotel, where the floor and the supper and the attendance are better, and everything is under skilled and competent superintendence. It is all part of that gregariousness, that dislike of solitude, idleness, even repose, which is characteristic of our age and temper. The modern Briton is a cheerful, social animal; he likes to enjoy himself in company; and to rest—or sulk—by his own fireside is the last thing that appeals to his fancy. So he takes his case at his inn, like his Elizabethan ancestor, though under more pretensions and on the whole more refined and humane conditions than tell to those who ate their beef and drank their port in the White Horse and Blue Boars of the past.

Impromptu speeches were given at last evening's meeting of the Y.M.C.A. Library and Debating Society. Among the subjects discussed were: "How to popularize the Association," "Home Rule," and "The Education of Young China."

Mr. J. J. Dillon, of the Public Works Department, presented a Chinese at the Magistrate's Court this morning for maintaining without a permit on his premises at 2, Ma Li, Yuen, two wooden buildings, used as a pigsty and cockhouse respectively.

Mr. Dillon informed Mr. Hazledan that defendant was before the court on a previous occasion on a similar charge, and he then stated that the buildings were not his. After the hearing, witness went to Yuen and saw defendant, who admitted that he owned the buildings. He expressed the opinion that the man was trying to do his worship by denying ownership. A fine of \$10 with the alternative of one month's hard labour was imposed.

## NEWS OF THE DAY.

The first practice dance for St. Andrew's Ball takes place to-night.

A gold ring found in the City Hall last night, has been handed to the Police and awaits a claimant.

The sixth Gynkhana meeting of the season will be held at Happy Valley on Saturday, the 15th instant.

H. E. Mr. Claud Severn will hold the annual inspection of the Fire Brigade in front of the City Hall at 4 p.m. on November 21st.

Mr. P. P. J. Wodehouse, Deputy Superintendent of Police, leaves for England on ten months' holiday on the 22nd instant.

A trader at 30 Reclamation Street, Yuen, sent a folk to collect debts, and the man absconded with \$70 paid by him.

Today being the 44th birthday of H. M. King Emmanuel of Italy, Charlier Z. Volpelli, the Italian Consul, was at home at the Consular office.

The "P. and T. Times" understands that Mr. J. R. Lyness has been appointed to succeed Mr. W. McLeish as Secretary of the British Municipal Council in Tientsin.

Singapore experienced a novelty band performance recently when the mouth-organ and string orchestra of the King's Own Yorkshire Light Infantry played in public.

A Chinese workman employed at the Naval Yard was sent to prison by the Magistrate this morning for stealing brass from the yard. Inspector McHardy prosecuted.

Dr. Allen Sibree has reported to the police that with a false key somebody entered her chambers at 18, King's Buildings, Wyndham Street, and stole \$100 notes.

A Chinese attacked a man 74 years of age at 128 Queen's Road West yesterday, wounding his head with a chopper. The old man has been sent to hospital, and his assailant is in custody.

This morning at the Magistrate's Mr. Hazledan sentenced to one month's imprisonment a Chinese member of the crew of the s.s. Aldenham for stealing a coat from a Malay on the ship.

Y.M.C.A. outing section members to the number of twelve took advantage of the holiday yesterday to walk from Kowloon to Tai-ping-ye old road, a distance of about fourteen miles. The party returned by the five o'clock train after an enjoyable tramp.

The Rev. Foster Fogg, who has been in the colony for the past three years as Chaplain to the Forces, left for Home by the transport Somali to-day. Mr. Foster Fogg will be greatly missed from golfing circles. He took a very keen interest in the game and last year won the club championship. The Rev. Hooper Hunt succeeds him.

## LAUNCH AT TAIKOO DOCKYARD.

This morning the Taikoo Dockyard and Engineering Co. launched the steel screw steamer "Modius," which has been built to the order of Messrs. Alfred Holt and Co. for their Singapore and Deli trade. The vessel is of the screw type, the principal dimensions being as follows:—Length over-all, 204ft.; breadth, 31ft. 6in.; depth to awning deck, 31ft. 6in.; tonnage (gross), about 800.

Accommodation for passengers is fitted up amidships, with dining saloon. The officers' and engineers' rooms are situated aft in a steel house on the awning deck, the crew being berthed forward and the petty officers aft. The "Modius" is fitted with a large single-ended boiler, and open spaces are fitted up for the carriage of cattle. Electric lights will be fitted throughout. Triple-expansion engines of the builders' own make are being installed, steam being supplied from a large single-ended boiler. The vessel is expected to develop a speed of 12 knots.

The vessel is exactly the same as the s.s. "Circus," which was built at Taikoo Dockyard last year for Messrs. Holt for the same trade. The "Circus" has now been running for about 15 months, and has proved a very successful craft.

## TYPHOON WARNING.

The telegram quoted below was received from the Manila observatory at 12.50 p.m. November 11, 1913, by the American Consulate General:

Cyclone or Typhoon—W. of the Southern Ladrones or Marianas Islands. Moving W. or W.N.W.

## THE COURT CARDS.

A large audience welcomed the "Court Cards and their Jokes" back to the Colony last night, when they opened their brief season at the Theatre Royal. The entertainments provided by this capital company of entertainers when they visited Hongkong were of so excellent a nature that a solid and well-merited reputation was immediately established by them. The audience last night therefore expected much in the way of talent and genuine amusement and in every respect the Court Cards did not disappoint. One of course missed so exceptionally fine a singer as Miss Harnden Owen, but in Miss Rosina Palmerston, a very good substitute has been found. The other new members of the company—Messrs. George Graystone and Edmund Gaeton—are also valuable members.

The programme was thoroughly enjoyable from beginning to end, and practically every item was received with great delight. A large number of new songs and sketches have been added to the company's repertoire, and a very acceptable feature was given of what one might expect from subsequent performances. Whether singing or acting collectively or individually, the "Court Cards" know how to entertain and amuse. The duets and quartets were most ably rendered and greatly appreciated. Individually, every member acquitted herself or himself with the utmost credit. Miss Blanche Fane met with a rousing reception. She soon proved that she had lost none of her vocal and histrionic talent and that she was still as delightfully fascinating as ever. Her voice is charming and she dances and acts with grace and attractiveness. She sang "Blue Eyed Baby" perfectly, and as it has a very pretty, lilting air it found favour at once. Miss Fane was equally successful in the other songs she sang. Mr. Reginald Palmer was also received as an old favourite, and in his singing of the "Matrimonial Handicap" and in a clever account of a shopping trip, he proved herself the possessor of a highly cultivated and beautiful soprano voice, which she knows how to use. Mr. Edgar Warwick, the Joker, was as clever and amusing as ever, and caused much laughter by his funnies. Mr. Stanley Manning's song "The Boy Who Wasn't" was a great success. In the "Bovallia," he also added to the hilarity in several duets with Mr. Warwick. A splendid bass singer was provided in Mr. Graystone whose robust voice is exactly suited to such songs as "Duke, Duke, West" and "The Deep." The new pianist, Mr. Gaeton, proved himself a most accomplished player, both as soloist and as accompanist. His imitations on the piano of the piano, the old musical box, and the Taikoo organ were received with delight, as were also the more serious compositions, "A Study in D Minor" and "Military Prelude."

It was an excellent entertainment, and I thoroughly recommend all lovers of a clever and refined performance to pay a visit to the Theatre Royal during the brief visit of the Court Cards.

Mr. Gaeton, who has been in the colony for the past three years as Chaplain to the Forces, left for Home by the transport Somali to-day. Mr. Foster Fogg will be greatly missed from golfing circles. He took a very keen interest in the game and last year won the club championship. The Rev. Hooper Hunt succeeds him.

## A LECTURE ON CHRISTIAN SCIENCE.

BY WILLIAM R. BATHYON, C.S.B.

Member of the Board of Lectureship of the First Church of Christ, Scientist, Boston, Mass.

Yesterday evening a lecture on Christian Science was delivered, under the auspices of the First Church of Christ, Scientist, of Hongkong, in the Theatre Royal before a large audience.

Mr. Charles Richardson, Chairman of the local First Church of Christ, Scientist, said:

Friends, The members of First Church of Christ, Scientist, of Hongkong, in inviting the lecturer, Mr. Bathyon, to address you upon the subject of Christian Science are not seeking to change cherished religious views or opinions, neither have they the slightest wish to loosen desired reliance upon the ministrations of materia medica, nor is the lecture delivered to attack another religion or any persons or their opinions.

Christian Science comes with a message—a message of loving help to all mankind, a message of health, a message of abundance, a message of peace, joy and happiness to you and all mankind. The members of the local organization having been so greatly blessed in their slight understanding of Christian Science desire to lay before you some of the teachings of Christian Science which they have tried and found good. St. John wrote: "to prove all things and hold fast to that which is good."

Another purpose of this lecture is to present for your consideration, from an authorized source, statements of Christian Science upon which some of you may be holding erroneous opinions thus dispelling incorrect views.

It is now my great pleasure to introduce the lecturer, Mr. Wm. R. Bathyon, C.S.B., a Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, and I bespeak for his message your sincere and thoughtful consideration.

RESIDES THE BIBLE. Christian Science has but one text-book, "Science and Health with Key to the Scriptures" by Mary Baker Eddy. It is not a book to be quickly read or hastily thumbed over as one would a shallow novel. Nor is it to be approached with bias or prejudice if one would share its riches; but its truths may be proved and in turn imparted by child or sage who turns its leaves with an open mind. Only the open flower is that catches the dew and yields its honey to the bee.

It has been asserted that Christian Science places their text-book above the Bible as the guide to righteousness. No one can honestly make this allegation who has read the book carefully, for on page 497 of Science and Health are printed these words, the first of a series of tenets of our religion:

"As adherents of Truth we take the inspired Word of the Bible as our sufficient guide to eternal life."

What more emphatic and explicit recognition of such a charge could be demanded? The truths of Christian Science do not originate in the book Science and Health. They find expression there but their origin is in God. They have always existed and will forever exist. What effect, then, it may be asked, does the study of this book have upon those who have previously been Bible students? Does it supplant the Bible in their reverence and admiration? Is the Book of books less precious to them than before?

The answer is "No." On the other hand Science and Health harmonizes many seeming incongruities in the Bible which have long perplexed layman and theologian; it explains apparent contradictions; it discloses unexpected riches; it gives new significance to favorite passages, and brings neglected ones into favour.

The study and application of its teachings by those who have had little or no familiarity with the Scriptures has made them Bible students and Bible lovers. The one-time atheist, the scoffer and the blasphemous, are finding the Gospel is treasure house of joy and consolation whose untold doors had been barred against them until unlocked by the Key forged by the hands of a gentle woman who loved all mankind. No other book in modern times has made so many Bible readers.

It has fallen to my lot to have known the author intimately in the last few years of her earthly activity. One November day in 1908, Mrs. Eddy called me to her side from my home in Colorado, to become a member of that illustrious household at Chaucer Hill which she once publicly designated "the happiest group of Christian Scientists on earth."

I was privileged to share her daily concerns for more than two years, and from the time of my first and last hour's heart-to-heart talk with her down to the afternoon when standing at her side I saw her majestic hands cease her last written words "God is my ally," I have never wavered in my conviction that she has been the most trusted of friends, instructed with those good things of truth which have been the great strength of her life.

Her life was a life of unselfishness, of service to others, of love to all mankind. She was a woman who lived for the good of the world, and her teachings are a message of love and healing to all who will receive it.

Her life was a life of unselfishness, of service to others, of love to all mankind. She was a woman who lived for the good of the world, and her teachings are a message of love and healing to all who will receive it.

## THE GUILDHALL BANQUET.

### IMPORTANT SPEECHES.

LONDON, Nov. 11.  
At the Guildhall Banquet there was the usual brilliant company including Cabinet Ministers, Diplomats, Peers, Archbishop of Canterbury, Lord Chief Justice, Naval, Military and prominent men of the City.

#### THE FIRST LORD AND THE NAVY.

Mr. Churchill, in replying to the toast of the "Imperial Forces," said that next year the country would have a force of 150,000 sailors and marines, which was the largest on record. He emphasised the part played by Londoners in the Navy. They met to-night, he said, under circumstances free from danger to European peace, but nevertheless, there must be no relaxation in effort. The estimates of 1914 would show a substantial increase, and he declared that even in the region of the air the Navy need not fear comparison with any other country.

#### BRITISH OVERSEAS ARMY.

General French, also replying to the toast, expressed satisfaction at the presence of the large numbers of members of the Overseas Dominions at the Army Manoeuvres. This attested to the growth of the efficiency and the strength of the Overseas portion of the Army.

#### THE PRIME MINISTER'S SPEECH.

##### THE WAR IN THE BALKANS.

Mr. Asquith, who was cheered on rising to reply to the toast of His Majesty's Ministers, said that a year ago they were witnessing the conflict between Turkey and the Allied Balkan States. It had no sooner been ended than it was followed by an outbreak of hostilities between the victorious Allies. The clash of arms had now happily ceased, but thousands of lives had been sacrificed, millions of territory devastated, and above all the inevitable horrors of war, things had been done and suffered which had shocked and repelled the whole civilised world. It was too soon to draw up the debtor and creditor account and say whether there had been or would be a balanced gain or loss. Heavy indeed was the responsibility which lay on the shoulders of the States directly concerned, for the future of the populations for whose interests under a new distribution of power in the Balkans they had severally become trustees. It was an easy task to blame Europe, but although they had shown themselves impotent to prevent or curtail the lamentable effusion of blood, yet to anyone who remembered the history of the Eastern question it should be rather a matter for surprise and satisfaction that the area of conflict had been circumscribed. Mr. Asquith emphasised that for a generation past there had been one main pre-occupation of European diplomacy, namely, to prevent the re-opening of that question in the belief that it could not be revived without the certainty of open dissension and grave risk of a possible war between the Powers themselves.

##### FALSIFIED APPREHENSIONS.

The one feature of international history of the past year over which it was possible to look back with unqualified admiration was that those apprehensions had been completely falsified. It was true that events had revolved themselves sometimes in a fashion that seemed to menace indirectly the susceptibilities or the interests of particular Powers. There had been moments of grave anxiety, but by the exercise of patience and tact, of self-restraint in some quarters, of strenuous goodwill in others, those difficulties had been overcome, and they in London might well with pride that the united voice of Europe had ascribed a leading part in this beneficent task to Sir Edward Grey. (Cheers.)

##### THE ALBANIAN QUESTION.

The Foreign Offices of Europe, continued Mr. Asquith, had plenty of business still before them in connection with Albania and the Balkans, and it would be too much to say that they were satisfied with such a settlement as had already been made, but they at any rate were resigned to it and they were prepared with goodwill and a common desire for the continuance of peace to make the best of it.

##### TURKEY'S ASIATIC PROVINCES.

Another cause for satisfaction was that the Asiatic provinces of Turkey had not been involved in the conflict. (Applause.) It was the Government's desire that the integrity of these Dominions should not be impaired. In them were holy places to the Mohammedan religion, and

sacred by the whole of the Mussulmans, many millions of whom were loyal and devoted subjects of the British Crown. (Cheers.) Great Britain would gladly offer any help in the prosecution of that course, to which the Turkish Government might invite, without forgetting the three other Powers who had a special concern in the well-being and development of Asia-Minor.

#### A CRITICAL YEAR FOR CHINA.

Mr. Asquith, continuing, said that there were other parts of the world confronted with special perplexities and dangers. This had been a most critical year in the history of China. The Chinese Republic had now taken her place among the politics of the world, and in common with other nations, Great Britain had recognised that it would be impertinent to comment at this moment on its internal affairs, but in view of our relations in the past and the vast interests of British trade which were bound up with its future development, they were only anxious to see authority stable and the Central Government accepted by the Provinces and effective throughout the whole of China.

#### MEXICO.

The Premier said that though Mexico was still in the throes of civil war there had never been and could never be any question of political intervention, on the part of Great Britain in the domestic concerns of Mexico or any Central or South American State. "It was no part of our right or duty in that part of the world at any rate to prevent revolutions or to attempt to preclude or control civil war. The utmost that Great Britain could do was to give what protection was possible to British lives and property in times of urgent danger and crisis. A rumour had found credence in some quarters that at a moment when the United States were taking a line of their own with regard to Mexico that Great Britain had entered upon a new departure or policy deliberately opposed to that of the United States, and calculated to thwart it. There was not a vestige of foundation for such a rumour on March 31, which was before the present Administration of the United States had had an opportunity of making any declaration of policy. When the British Government recognised Huerta as President *ad interim*, they did so because having neither the will nor the power to intervene, they were bound to deal with whatever was for the time the *de facto* Government; and because there appeared no element except Huerta that offered any prospect for the restoration of stability and order. That was on March 31. Since then there has been no change of policy by the British Government. Great Britain gladly assumed that the United States' policy would have regard to the legitimate commercial interests of Mexico as well as of their own. The exchange of views with the United States had been marked by perfect cordiality and nothing could happen to disturb our common resolve to maintain a friendly and sympathetic understanding—(Cheers)—and none had done more to foster that spirit than Mr. Bryce." (Cheers.)

#### THE SIGNS ON THE HORIZON.

Mr. Asquith concluded by pointing out that there were signs on the horizon portending the inevitable slackening of the volume and the velocity of the tide of trade. There had been the initiation almost everywhere of costly schemes of social reform, and in addition to the waste of wealth in actual warfare, there had been an unprecedented addition both on land and sea of the apparatus of organized destruction. All that imposed a dangerous strain on the taxable capacity and credit of a nation, which must react on the springs of industry and on general progress, and material well-being. (Cheers.)

#### A QUESTION FOR STATESMEN AND BUSINESSMEN.

His last word that night was to ask the question—Was it not time for Statesmen and every man of business to take counsel together to secure a safer and more fruitful appropriation of the common resources of mankind? (Cheers.)

#### A FAVOURITE RUB DOWN.

THE editor of the foot ball paper and the foot ball player know the value of a good "rub down." The value of a good "rub down" is well known to all who are engaged in any kind of physical exertion. It is a most important part of the game, and one which should not be neglected. It is a most important part of the game, and one which should not be neglected.

# BY TELEGRAPH.

(Reuter's Service to the China Mail.)

## BRITISH POLITICS.

### THE PRESS AND THE BYE ELECTIONS.

LONDON, Nov. 11.  
Comments on the results of the elections run on purely party lines. "Lithograph splendid," "Reading magnificent" is the keynote of the Unionist papers, which declare that it would be absurdness for the Government to ignore the warnings against Home Rule.

The Liberal organs, on the contrary, maintain that local factors and the unpopularity of the Insurance Act are mainly responsible for the losses.

The Times says the results show that the country does not like a policy leading to civil war.

The Morning Post declares that Ministers cannot continue to be opposed to the demands for a general election.

The Daily Telegraph expresses the opinion that if the Government now makes an offer to Ulster it will have to be on generous lines.

The Daily Mail considers that in face of such verdicts no Government can attempt to use armed force in Ulster.

The Standard describes the election results as a staggering blow to the Government.

The Daily Chronicle declares that the Unionists fought mainly on Insurance, Home Rule had little place in the mouths of the speakers.

The Daily News does not believe the result indicates an anti-Government tidal wave, and declares that the Mandate of the Government has been maintained.

#### MR. BONAR LAW ON THE RESULTS.

Mr. Bonar Law telegraphed to Capt. Wilson as follows:—"After Linlithgow, the wonderful victory at Reading is a plain intimation to the Government that their Irish policy is impossible."

#### THE MEXICAN PERMIT.

##### PRESIDENT HUERTA UNMOVED.

LONDON, Nov. 11.  
A telegram to New York from Mexico City states that President Huerta appears to be unmoved and is the principal figure at the Cafes, where he indulges in relaxation with his military friends.

There is more uneasiness apparent at the United States Embassy than at the Palace, where it is frequently suggested that the United States will never intervene.

American declare that the waiting policy cannot be long maintained, but President Huerta merely reiterates that there will be a new election, at which neither he nor Planquet will be candidates.

#### THE BALKAN STRIFE.

##### TURKEY'S HIGH-HANDED ACTION.

LONDON, Nov. 10.  
After numerous delays, the Turkish peace delegates have received the long-awaited instructions from Constantinople, but these have momentarily disappointed any hope of a speedy settlement, as the Porte not only makes no concessions, but formulates fresh demands. The Greek Foreign Minister has declined to discuss the latter pending their consideration by the Cabinet.

#### SIR EDWARD GREY'S VIEWS ENDORSED.

A Berlin telegram states that the Norddeutsche Zeitung discussing the Turco-Greek situation, says that the aspirations of the individual Balkan States were not serious so long as the Powers did not allow themselves to be enticed into partisanship. This should not occur. The Norddeutsche endorses the remarks of Sir Edward Grey in which he stated that there was plenty of trouble for the Foreign Offices in Europe, which, however, had not pre-occupied the attention of the Naval or Military departments, or caused apprehensions among other nations. The statement made by the Russian Premier that he was confident that Greece, Rumania, and Bulgaria would not be enticed into a Balkan League, and that any such League would be a disaster to the Balkan States, is also endorsed by the Norddeutsche.

## GERMAN TRANSPORT IN TROUBLE.

LONDON, Nov. 11.  
A wireless distress call has been received from the German transport Rhenania, bound for Darussalam with three hundred troops. A later message, however, states that the transport is safe, and is making for Lisbon.

#### OBITUARY.

##### SIR RICHARD SOLOMAN.

LONDON, Nov. 11.  
The death is announced of the Hon. Sir Richard Solomon, G.C.M.G., K.C.V.O., K.C.B., High Commissioner for the Union of South Africa since 1910.

Born in 1850 at Cape Town, Sir Richard was called to the Bar in the Inner Temple in 1879, and in 1886 was appointed legal adviser to Lord Rosemead on his mission to Mauritius to inquire into the affairs of that island. His many appointments and offices in South Africa included membership of the House of Assembly, Cape Colony; Attorney-General 1898-1900; legal adviser to Transvaal Administration and to Lord Kitchener 1901 and 1902; Attorney-General of the Transvaal 1902-07; Acting Lieutenant-Governor of the Transvaal 1905-6, Member of Executive and Legislative Councils of the Transvaal. He represented the Transvaal at the Delhi Durbar in 1901, and was Agent-General for that colony in London from 1907 to 1910.

#### LORD MAYOR'S SHOW.

##### FINE MILITARY DISPLAY.

LONDON, Nov. 11.  
Though the Lord Mayor's Day was showery, the decorated streets were thronged with people. There was an unusually fine military display, and also a representation of a Lord Mayor's Show of the seventeenth century, when the new river scheme was completed. Sir T. Vansittart Bowater, the new Lord Mayor, was warmly cheered.

#### CONTINUED LABOUR DISPUTES.

##### THE VANCOUVER MINING TROUBLE.

LONDON, Nov. 10.  
Two thousand labourers employed on the Vancouver Port George railway have struck work for a minimum wage of four dollars (16s. 8d.) for an eight-hour day, and to secure the release of the miners imprisoned in connection with the recent strike.

#### THE NEW ZEALAND STRIKE.

A Wellington telegram states that the Secretary of the Labour Federation has announced that all the Unions in Wellington, Christchurch, and Dunedin will call out their members to-day.

#### ALLOCATING LOANS.

##### OPPOSITION FEARED.

PEKING, Nov. 11.  
The Government has decided to devote P. 80,000,000 of the Belgian bank loan to the opening up and development of the port of Pukow and a similar amount to the construction of the Wuchang-Hankow Railway. A proposal to use the remainder of the loan, P. 80,000,000, for administrative expenses has been objected to by the French Minister, and it is feared that hindrance will arise.

#### DR. SUN ACTIVE.

AMMUNITION COLLECTED AT MURDEN.  
PEKING, Nov. 11.  
The Governor of Mukden has reported that the Royalist Society there is in league with Dr. Sun Yat Sen and Wong Hing, and that large quantities of ammunition are being imported from Harbin.

#### CHAMBERLAIN'S TROUBLED REMEDY.

AT 11.30, you have had cold you want a remedy that will not only give relief but also a prompt and permanent cure. A remedy that is pleasant to take, and that is safe for all ages. Chamberlain's Cough Remedy is the remedy that will cure your cold, and it is safe for all ages. Chamberlain's Cough Remedy is the remedy that will cure your cold, and it is safe for all ages.
